Life of a College Student

By Izabelle Shiffler '23

The life of a college student sure is tough
With endless assignments and tests, it's been rough
The early mornings and fun latte nights,
The impromptu hangouts and fun new sights
The comings and goings of friends,
Meeting new ones that'll last through the end
Rather than study, let's spend time together
Having fun in this ever-changing PA weather
Making more memories with endless laughs
Capturing the good times in photographs
So we can always cherish the good times in college
When we were force-feeding our brains with lots of knowledge
The college road had ups and downs
Some days were less smiles and more frowns
But nothing beats turning an assignment in last second
The sweet relief of success, there's nothing better reckon

Over the last four years we all matured
we cannot wait to escape the smell of cow manure

ELIZABETHTOWN COLLEGE LIBRARY
ELIZABETHTOWN, PA

Dear Elizabethtown College Students:

Wow—what an amazing journey you have had these past few years! For those of you graduating this year, you were just about in the middle of your college career when the world was rocked by a global pandemic that shuttered many places, including our beloved campus. There was uncertainty, fear, and lots of changes. We changed how we taught classes, how we learned and performed, how we purchased groceries, and how we gathered (or not) with our friends and family.

Some people might look back on the last few years and mourn the loss of normal routines and connections and perhaps feel cheated from some of the things that we were not able to do. Instead, I urge you to reflect upon the many positive things that have transpired over the past few years and use these reflections to propel you forward. For starters, you have persevered to complete the requirements for your degree and you are graduating into a promising future. You have learned to be flexible and resilient. You have figured out how to navigate through an uncertain world and to advocate for the resources you need to be successful and healthy. You have had opportunities to slow down and think about what is most important to you. The strengths and skills you have developed will serve as a foundation for success from this point forward.

I congratulate you on your achievements and I know that you are ready to use your talents, empathy, intellect, and energy to contribute to the world beyond the Etown campus. Wherever you go, continue to be proud of your degree and alma mater, just as we will continue to be proud of you. You are now officially joining the Blue Jay Alumni family, which means you will never be alone on your journey ahead.

Best wishes for the future, keep in touch, and remember--Blue Jays. Always!

Betty Rider

Class of 2022

2022 Senior Class Gift

A letter to the Class of 2022,

When I think back on my four years at Elizabethtown College, I will not think about the projects that kept me up all night or the tests that I had to study for up until the last minute, due to my own procrastination. I will remember the friendships I made, the independence I learned, and the memories that I was fortunate enough to create alongside you, the Class of 2022.

While our college experience was truly unlike any other, I can confidently say that each and every one of you has proven to come out the other side a stronger and more resilient person than you were four years ago. We are entering a new chapter in all of our lives and we have never been more well-equipped for what the world outside of this campus has to offer. With the community at this school, you will always have a flock of Blue Jays who have your back and who are cheering you on from all around the world, in addition to 1 Alpha Drive.

I want to wish you the best of luck in your endeavors, wherever they may take you. I sincerely hope that you continue to pursue lifelong happiness, act with kindness, and find success in all forms, with whatever the future holds for you.

Congratulations and most importantly #RollJays
